CEO speaks !

**Mudassar Hussain.**

**The heart and soul of a company is creativity and innovation**

We have been successful in exceeding customers expectations and helping them realise their visions through a combination of entrepreneurial spirit, professional quality, and in-depth knowledge of the demand-supply dynamics in the global healthcare business. We have achieved this by adjusting to a changing competitive environment, being consistently committed to quality, and practicing fiscal restraint, including efficient capital allocation. As a

result, we have made remarkable success in a short period of time. Developing more international projects will lead to our next era of growth. While maintaining their authority and facilitating their own development and evolution, setting business Modern Surgical Corp enables individual teams to create goals that contribute to those larger objectives.

**An entrepreneur is someone who has a vision for Something and a want to create**

## COMPANY OVERVIEW

The journey of Modern Surgical Corporation began with the endeavors of our fathers back in the year 1980. The strong foundations built by our grandparents have enabled us to establish a reputation for producing high-quality surgical tools in Pakistan. Mudasir Hussain, our CEO, began at a very young age but with considerable knowledge of surgical instruments, he developed a vision to foresee a business opportunity. After years of experience and knowledge of surgical instruments, our company export our products to different countries which introduced new skilled personnel in this field. Modern Surgical Corp, is the leading manufacturer of the finest quality surgical instruments. As time passed, the Mughal family established this industry and succeeded

by producing high-quality surgical, orthopedic, dental, hollowwear, veterinary, beauty, and manicure/pedicure instruments. We also offer customized instruments for our valued customers. OUR objective is to provide healthy and happy lives around the world with high-quality instruments manufactured with quality engineering. As a company, we aim to empower our customers with our knowledge and experience and to empower them with all the professional assistance they might need. We provide customers with timely and dedicated services, with a strong emphasis on “quality” and “cost-effectiveness” in order to deliver goods on time and within their intended budget. Our products are certified by ISO 9001: 2008, CE and cGMP (USA).

An entrepreneur is someone who has a vision for Something and a want to create

From the strong foundations built by our grandparents, we have established a reputation for producing surgical tools of the best quality in Pakistan. Quality is ensured by continuous monitoring throughout the manufacturing process. As a result, we have reached international standards. As a result of dedication and hard work, the company has built strong international relationships with its clients worldwide, making it one of the top

surgical companies around today. Our products are guaranteed to be 100% defect-free and accurate for their intended purposes. We believe in building relationships with our customers. We take every step to obtain feedback from them. This allows us to make improvements and developments to the products.

# OUR MISSION

Our goal is to establish Modern Surgical Corp as our clients favorite choice for surgical instruments by providing amazing value, ongoing innovation, and the best customer service. The quality of our products and services helps us achieve our mission. As technology advances, we are also constantly creating new items, modernising our equipment in every way imaginable, and conducting research using more efficient techniques. At

Modern Surgical Corp, skilled artisans forge and produce each precision tool to exacting standards and specifications. The instruments must undergo a series of quality control specifications in order to carry the name and warranty of our company.

# OUR VISION

Our vision always pushes us to develop and offer high-quality products which can be proven to be useful and durable. Our goal is to completely satisfy all of our customers' needs through a process of ongoing improvement. By creating a secure workplace, regulating our business processes, choosing excellent suppliers, and upholding clear internal and external communications, we aim to continuously improve the way we work.

## Value of Craft

We manufacturing and serving the healthcare industry with the best, elite quality products and a various range of instruments. In Pakistan, craftsmanship is passed down from generation to generation by artisans who have spent a lifetime learning, mastering, and then passing on the traditional techniques. It is important to transmit our craftsmanship to the upcoming generation because it is unique in this sector. It can be summed up as Quality. Why our surgical instruments are not manufactured by machines has frequently been questioned.

**OUR HIGH STANDARDS WOULD BE IMPOSSIBLE FOR A MACHINE TO MEET, AND IT WOULDN'T UNDERSTAND HOW THE INSTRUMENT FELT. WE TAKE GREAT PRIDE IN PROVIDING OUR QUALITY THROUGH CRAFTSMANSHIP.**

# MANUFACTURING PROCESS

All Modern Surgical instruments are built on a foundation of highly skilled labour conducted with the use of contemporary production methods, premium materials, and cutting-edge technological know-how. Producing surgical products demands accuracy, dedication, and ongoing research. We start by choosing the best

stainless steel, which is then precisely produced using machinery. Then, using a vacuum furnace to solidify the material comes final inspection by skilled technicians. At our organization, these are some of the most effective methods.

The creation of surgical instruments still necessitates the expertise of craftsmen, professionals with the innate talent needed to create high-load devices that combine delicacy and balance.

**OUR GOAL HAS ALWAYS BEEN TO UPHOLD A HIGH LEVEL FOR PRODUCTION, QUALITY ASSURANCE, AND CLIENT SATISFACTION.**
